

'Conveying Confidence'

Arch Environmental Equipment is a manufacturer and distributor of a wide range of **mechanical** and **electrical** products *designed to improve the efficiency and safety of conveyor belt systems*. For over 30 years we have provided cost-effective solutions to organizations in need of better conveyor performance. We listen to our customers to provide the best solution for their unique needs. Our diverse product line covers the entire conveyor, from tail to head, assuring ARCH customers, distributors and representatives consistent quality and performance.

Each step of ARCH's in-house manufacturing begins with computer-aided design through final assembly and shipping. Our facilities include a fabrication shop, machine shop with CNC equipment and state of the art urethane production. This allows us to meet the quality standard that our customers demand.
